Fundamental changes are being made in the organization of Abteilung K (Criminal Police) and in Abteilung V (Administrative Police). Abteilung V will be sufficiented "Abteilung Intendantur und Verwaltung". The actual administrative police sections of the present Abteilung V — V 2 and V 5 — will remain in the new Abteilung I/V only as vestigial branches of comparatively little importance. The major responsibility of the new department will be finance and disbursement, housekeeping, supply, ordnance, supply, etc.

Compant The latter organizational change, together with the use of the word "Interplantur" - the German army term for the services of troop supply is significant in terms of the current militarization of the Soviet Zone police.)
